Term 4, Week 2

15 October 2021

Dear Parents and Kingstown Community,

WELCOME TO TERM 4!

Hopefully we can get together soon with less pressure and rules!

But firstly, great news! We would like to welcome two new families to our school. Kassedy and Blaze Carlon who are with Miss Burton in the K-3 class, and Savannah Carlon who is in Year 5 and in the Upper Division class. We would also like to welcome the Pensini family and Brock Pensini to Year 5.

It is lovely to have new students join us this term. We now have 15 students!

The school is definitely livelier, buzzing with activity and energy! In class, all students are settling back into their learning routine and it is wonderful to hear this week how impressed all teachers have been with their standard of work and high motivation.

TREE PLANTING

Last week the students did a great job planting many trees and shrubs donated by Landcare, to establish a native habitat for the endangered Regent Honey Eater at Kingstown School. We hope over time we may actually spot one! The rain was good timing!

*A big welcome to our new
students and their families*

Thank you to Mr Jackson for picking up the trees and shrubs and collaborating with us on the day!

We have also planted fruit trees in the far corner of the school – pear, apple and mandarin.

NEW PROJECTS AND FURNITURE

We are very excited about other new projects in the pipeline this term, such as revamping our library with an interactive white board and new shelving; new furniture for the middle classroom, arriving today, which was fantastic, as we have been wanting to brighten up that classroom for a while and lastly, the installation of a new kitchen in the Hamilton building, with a bench for students to prepare food on, a new stove, small dishwasher and new cupboard space. There will definitely be more cooking happening!!

What a great little school we have!

It's a bit like staying home and renovating in these covid times!
